**Items Discussed**

The Mayor mentioned he would like to have a resolution to present to council for the Fire Department training center at the Owens Property. Further discussion was made on the training center. Chief Vest said training will be conducted on all three shifts at the Fire Department. Chief Vest also gave further details of what the training center needed in order to make it an official training center according to the NPA requirements. Chief Vest also added that having the training center would be one element to helping his goal in achieving a level two in an iso rating. Having a lower rating will help residents with lower insurance cost.

Mayor Brown informed everyone about Kentucky Fish and Wildlife being at the Owens Property in recent days and how they shocked the lake. He also informed that there is a crack in the spillway and headway and that they would both need to be repaired. He gave details on how Fish and Wildlife would like to stock the lake with fish and that they expect getting the lake ready will be a two-to-three-year project. There was also discussion on what to do with the house on the Owens property, whether it should be restored or torn down. Council and Mayor will do further research and discussion before making a final decision.

Council Member Howard Stevens brought forward his plans to put solar lighting along Town Center Dr. Mr. Stevens feels this is needed for safety for our residents and by using solar it would be done at a low cost to the city.

Discussion was made about employees sick and vacation time and whether or not to turn it into PTO time. There was also discussion about making supervisor positions salary from there current hourly status.
